critical findings

Report Turnaround

Routine Outpatient Examinations

- Final report typically available within 24 business hours.
- Reports delivered by secure fax and additional secure delivery methods as available.

STAT Examinations

- Critical findings communicated immediately by telephone.
- Final report completed and transmitted as soon as interpretation is finalized.

Every Report Includes

- Patient demographics
- Examination performed
- Clinical indication
- Ultrasound findings
- Impression
- Measurements when applicable
- Comparison with prior studies (when available)
- Interpreting physician signature

Communication of Critical Findings

If urgent or unexpected findings are identified, the referring provider will be contacted promptly. All critical communications are documented, and the finalized report is transmitted as soon as possible.

Secure Report Delivery

Reports may be delivered by:

- Secure Fax
- Secure Provider Portal (coming soon)
- HIPAA-compliant electronic delivery (when available)
